

EXPLORE MILLIONS OF VISUAL ASSETS WITH EASE

Lumina Datamatics now has a vast collection of visual assets on its proprietary-owned RightsPlatform which are available for licensing.

This content can be searched via keyword, publication information or asset type for quick search results and exposure to previously hard to access content. Image assets can be quickly and easily licensed through RightsPlatform Marketplace and image file can be downloaded upon purchase.

In addition to rights-managed content, there is also a range of content available via Creative Commons license types (CC-BY, CC-BY-NC and CC-BY-NC-ND), and the image files can also be provided for these assets for a fee.

SEARCH OVER 5 MILLION IMAGE ASSETS FROM MORE THAN 1500 JOURNALS

The RightsPlatform Marketplace Difference

- Allows search of 5 million assets and growing...
- Quick and easy licensing process
- Competitive licensing terms and fees
- Customizable licensing terms and fee schedules
- Image file download available upon completion of transaction
- Can handle special requests and project specific questions

RightsPlatform Marketplace Features

- Manages multiple asset types (image, audio, and video)
- Find the right photograph, table, chart, or graph from high-impact journals to illustrate your concept.
- User-friendly e-commerce interface with customized reporting feature
- Enables seamless licensing transactions and delivery of high-resolution files
- Resides on Amazon S3 cloud for expandable storage capacity
- Hosts a range of scientific, technology, and medical subject matter
