

eBook Conversion Services

Lumina Datamatics, a Benetech GCA-certified vendor with 30 years of experience in content transformation, has a decade-long partnership with Ingram, providing expertise in handling high-volume eBook conversion projects in multiple formats, including accessible eBooks. We also provide accessibility, coding & markup, and data-capture services backed up by end-to-end project management capabilities.

Our Services

eBooks

- Accessible eBooks
- Fixed layout and reflowable eBooks (EPUB 2, EPUB 3) with EduPub standards
- Multimedia interactive eBooks, HTML5
- Independent eBook QA services
- Spec standardization and management

Coding & Markup

- Expertise in XML, SGML, HTML, and other proprietary markup languages
- Ability to handle DTDs like BITS, JATS, DocBook, NLM, and client-specific DTDs
- DITA XML, NIMAS, DAISY & QTI XML conversion
- Capacity to handle high volume conversion projects, including front end to legacy conversions

Input Types

- Hardcopies, images, or scanned PDFs
- Print PDFs and application files
- All types of markup files (HTML, SGML, TXT, XML, etc.)

Data Capture

- Scanning and OCR
- Keyboarding
- Experienced in data capture for non-English languages
- Content accuracy of 99.995% to 99.997%

Benefits

- Project management oversight from start to finish
- Alt text description writing, editing, and QA
- Ability to handle multiple formats
- Automated conversion tools
- Benetech Global Certified Accessible™ (GCA) vendor
