Lumina Datamatics delivers competitor intelligence for marketplaces, multi-brand retailers, and brands by leveraging its technological expertise in the following domains

Unlock Scale

Multilingual Support

Data Accuracy

Actionable Insights

Data Aggregation

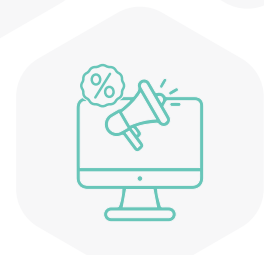

Our highly scalable, distributed data aggregation infrastructure can obtain millions of data points from websites and mobile applications across geographies and languages with varying levels of complexity to provide structured data output

Data Analysis and Visualization

Our visual capabilities, paired with robust data analysis, obtain meaningful insights and thus helps in quick decision-making.

Product Matching

Our robust machine-human hybrid approach to product matching helps enhance accuracy and deliver incredibly reliable results. Our ability to match at a product-attribute level enables us to provide not only exact matches but similar matches as well.
